## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-34, 47-51, drawn to a gated diode memory cell, classified in class 257, subclass 288.
  - II. Claims 34-46, drawn to a gated diode memory cell, classified in class 365, subclass 175.
  - III. Claims 52-53, drawn to a method of writing to a gated diode memory cell, classified in class 365, subclass 175.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the gated diode memory cell in Inventions I and II can be programmed with other writing method (i.e. flash, ...) than that method claimed in Invention III whereas the method in Invention III can be applied to program for other memory types (i.e SDRAM, EEPROMs....) than that claimed in Inventions I and II.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2824

4. Because these inventions are distinct for the reasons given above and the search required for Groups I, II is not required for Group III, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Eric M. Parham on 10/3/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
